TOWNSHIP APPOINTMENTS - 2010

Mr. Markley made a motion to affirm the following appointments for 2010:

Fire Chief	Brian A. Phan
Police Chief	James P. Jimison
Interim Zoning Inspector	Shane Wrench
Highway Superintendent	Walter Rudyk
Township Administrator	Vacant
Property Superintendent	David Mitchell

Mrs. Benza seconded the motion.

Mr. Lynch asked that the following section be transcribed verbatim and does not reflect our traditional minute format.

Mr. Lynch: Explain to the public in your executive session to "inaudible".

Ms. Sass Benza: No.

Mr. Markley: What I will just say.

Mr. Lynch: Some justification.

Ms. Sass Benza: I don't think you should.

Mr. Lynch: Because what has been proposed under this motion is that to "inaudible" relieve Mike Joyce.

Mr. Markley: Well after tonight, after tonight's meeting.

Mr. Lynch: And both in his role as Township Zoning Inspector. It is an interesting turn of events and some of you may recall discussions we had like the "audible" where ice had knocked the gutter off the building and it became very apparent to me early on that the day to day operation of this township and budget and "inaudible" was not affected by the Board of Trustees "inaudible" and raised a need about the position of Township Administrator. It is also interesting to note that although I raised these issues in 2008 and it was not the first time they were raised, in November 2007 before I took office, the previous board including Mr. Markley discussed whether or not the "inaudible" in whether that is something we should look into and at that time Mr. Markley was quoted in the paper as saying the on the Township Administrator that it depends on the type of work involved in the township that work would include coordinating many projects of the park as well as taking care of the JEDD. This would not include hiring more people, it would be a change of job description and I think it would be the background to the discussion and when I came into office in 2008 that discussion continued through 2008 until the end of 2008 when in 2009 after I can't even tell you how many discussions we had about the need for a Township Administrator but in September of 2008 in yet another article in which the trustees had various quotes in a local paper about the need for a Township Administrator, Mr. Markley said at that time quote I am certainly in favor of it right now, it is not the trustees job to run the township on a day to day basis he said, a township like ours should have a Township Administrator. I agree and I agreed with Jeff then and in early 2009 a motion was made, I believe I made the motion in which we decided that after some discussion both in public and executive session to have Mike Joyce take the role as Township Administrator and then finally on February 9th I made a motion to create the part-time Township Administrator position under the Ohio Revised Code which by the way defines the Township Administrator's duties, it was seconded by Linda White and passed unanimously, that is no objection and no discussion which was reflected in the record. It is extraordinary to me that after frankly some years of discussion about the need for a Township Administrator, quite publicly stated by Mr. Markley that he called an executive session, was it Friday.

Mr. Markley: Uh-huh.

Mr. Lynch: Friday, in an email I received today saying that we must have an executive session at 6:45, a 15 minute executive session at which point he informed me and I wrote down what you said Jeff that you had this thought process over the last couple of months.

Mr. Markley: Uh-huh.

Mr. Lynch: Although there has been not just a little discussion there was no discussion about the possibility of eliminating or altering or letting Mike go or anything along

Monday, January 4,

10

those lines. I find it frankly draconian that this board has had the tremendous service of Mike as Zoning Inspector and Township Administrator within a 15 minute session decide that they are going to eliminate those positions and let him go and frankly, although not illegal I presume that the Lorrie Sass as trustee elect and Mr. Markley as sitting trustee must have had these discussion long ago because they were certainly in general agreement as to what they were going to do tonight and I think it is, it is just wrong but if this board seriously wants to consider eliminating or rewriting the Township Administrator position okay, then let's do that, but let's not come into this room in a 15 minute discussion with no input from the public and I might add no input from our Township Administrator who I presume this is all new to you Mike.

Mr. Joyce: Absolutely.

Mr. Lynch: Most of us if we were called in by our boss and told we were going to be shown the door the next day, we would be wondering what the hell happened and frankly I am wondering what the hell is going on. I find this incredible we would do this to someone who has given us good service and if I am not mistaken Jeff weren't you on the board when they hired Mike.

Mr. Markley: Yes, you mean as Zoning Inspector.

Mr. Lynch: As Zoning Inspector.

Mr. Markley: Yes, absolutely.

Mr. Lynch: You were on the board when we hired him as Township Administrator too.

Mr. Markley: Yes, yes indeed.

Mr. Lynch: And when he was hired as the Zoning Inspector we had an Assistant Inspector at the time.

Mr. Markley: We did.

Mr. Lynch: Alright. So I really, organizational chart for the township you can see the trustees, the township administrator and the various departments. I showed you the spider web it used to be, our organizational chart and you can understand why I think this is appropriate because we had all kinds of various input directly to the board including should we "inaudible" to eliminate the Township Administrator position but whether I made the mistake or not the much graver mistake to make that decision with no public input, with no opportunity for the employee who is about to be eliminated to even understand what the circumstances of eliminating the position are. This is not transparency in government this is just, just bullying and I recommend that this motion be denied.

Mr. Markley: Further discussion I think Mr. Lynch you point out these articles very succinctly and actually I agree with every one of them, I made the motion today on the appointment to vacate the Township Administrator role, not to eliminate it because I still think the administrator role could be very valuable in this township.

Mr. Lynch: In executive session I asked if you were firing Mike and you said oh no, we are just not appointing him. You are firing him.

Mr. Markley: Okay.

Mr. Lynch: So both positions.

Mr. Markley: Can I finish?

Mr. Lynch: Sure.

Mr. Markley: Okay. So my perspective.

Mr. Lynch: If you are going to do it just man up to it and tell everybody that is what you are going to do.

Mr. Markley: No, what I am going to continue to say, I've got a I mean you had a very elaborate presentation here and I appreciate that.

Mr. Lynch: Considering you gave me all about three hours notice.

Ms. Sass Benza: Let's grow up a little bit. You had your say. My recommendation would be to have him have his say and if we need to have further discussion we will. The motion on the table is for a series of appointments, there has been no motion as I understand it to abolish the position that is "inaudible", simply leave it vacant right now.

Mr. Lynch: There is a motion on this table which has the effect of discharging Mr. Joyce from all of his duties for the township, that is the motion, you can you can dress it up anyway you want, that's the motion.

Mr. Markley: I am just going to go I am just going to go ahead and finish on the Township Administrator because I think that was the role we were first talking about, I think that there is an opportunity for us to revisit this powers and duties of Township Administrator, we didn't talk about it at all in executive session because, not just tonight, but when we hired the individual because there wasn't any time to talk, you don't it's not appropriate to talk about the Township Administrator position in executive session. If you

Monday, January 4,

10

are creating a position that has got to be done in public and I can't tell you that there has been a whole lot of public comments by the previous board on the Township Administrator role. It came to us in executive that Mike Joyce should be hired as Township Administrator. I supported the concept of hiring a Township Administrator and the role that someone like that might play. I was convinced that as a part-time, for this township, part-time would probably be the best way to approach it because we don't need a full-time administrator and as such I voted yes to appoint the Township Administrator at the time but again the position of Township Administrator was not discussed in public to any great length or any great detail as to whether it was necessary, what the job description would entail and as a result I think we need to hold off on reappointing anybody for the Township Administrator until such time as we have a better handle on what we want from this. I don't necessarily agree with that chart up there that Mr. Lynch put together. I think that you've got a board of trustees and everything is funneled through the Township Administrator and I think that that takes something away from the relationship between the department heads and the township trustees and I think that's the relationship that we need to continue to foster, I don't like the idea that everything is funneled through one person. I think there is a, I think that there is some opportunity for real problems and miscommunication and as such I want, I want to discuss this further.

Mr. Lynch: May I ask a question?

Mr. Markley: One last point though. In conjunction with discussing this Township Administrator role we also need to discuss how liaisons fit back into this picture. Liaisons will be discussed later in the meeting or at least their appointments made. It was interesting as I found that even though previous boards of trustees had liaisons there wasn't appointments formally in the organizational meetings, I think that they shared and rotated roles as time went on. We've come to see that that wasn't the case in 2006 and 07 there were fairly fixed appointments even though I lobbied to have a particular liaison role or at least have the opportunity to explore different roles and that wasn't afforded me so we have to continue to look at the definition of liaison, the definition of Township Administrator before we appoint anybody to those to that position, that is the Township Administrator.

Mr. Lynch: If you believe that either the organizational chart should be altered in some way or that the Township Administrator's job description should be altered in some way or both, you can do that without discharging the employee that is in that position today, I mean you could all relieve all of the township employees including all of the department heads, including "inaudible", all serve at the board's pleasure.

Mr. Markley: At the board's pleasure, right.

Mr. Lynch: If we spend the next oh I don't know maybe a whole hour analyzing those issues, even a week from now or 2 weeks from now or 3 weeks and we make a thoughtful determination that either there should be no Township Administrator or that the Township Administrator should be have a different role or that Mike Joyce is just not the proper person for that, that can be done.

Mr. Markley: Uh-huh.

Mr. Lynch: Don't do it, to my mind in a in a closed door session and then come out and announce well we are just not going to appoint somebody.

Ms. Sass Benza: Let me follow up with a question.

Mr. Lynch: Let me get an answer to that question.

Ms. Sass Benza: Well.

Mr. Lynch: Why couldn't you do it that way?

Ms. Sass Benza: Can I expand on the question?

Mr. Lynch: Well while you expand on your questions I'd like to answer my question which is what is this rush that you have to do this in a 15 minute session, you can't spend the next 2 or 3 weeks or whatever it takes to properly address this question of his appointment?

Mr. Markley: True. Certainly there is no rush but "iaudible".

Mr. Lynch: Well if I can't.

Mr. Markley: I will answer your question, give me a second. Go ahead Lorrie.

Ms. Sass Benza: I am just wondering as I understand it the code says that if the position of administrator is, if the position is retained but but the actual person filling it for any reason does not fill it then the duties of it fall back on the Chairman. You've just been appointed Chairman.

Mr. Markley: Right.

Ms. Sass Benza: The question I would have is and this is why it goes hand in hand with Mr. Lynch's question is, is is, are those duties something that you have sufficient time to take on until we we get a firmer handle on this particular issue.

Monday, January 4,

10

Mr. Markley: I think it is incumbent on me having read this long before today that that, I mean I understand the concepts here, I understand the scope of work and to answer your question, yes, I am prepared to take that role, that role on now for a very, very short time and move forward with that. To answer Mr. Lynch's question, because the appointments were necessary were needed to be made tonight, we had to address those tonight and the opportunity to do so was not on New Year's Day, on Friday when we had the opportunity to call or convene a an executive session.

Mr. Lynch: Inaudible.

Mr. Markley: We have to make the appointments and so "inaudible".

Mr. Lynch: You can make the appointment on Monday and change it the next Monday, there is no urgency.

Mr. Markley: I think my point to that or my response to that would be why make an appointment that is going to we are going to change that job description and it could be significant.

Mr. Lynch: Well, well.

Mr. Markley: And as you pointed out.

Mr. Lynch: You make an assumption, why don't we analyze it whether we are going to change the job description before you before you say we are going to do it.

Mr. Markley: And you just said yourself that we also might change the personnel, he might not be the appropriate person at that point.

Mr. Lynch: If someone else is that might be the case I don't know. I don't prejudge him.

Mr. Markley: Given the fact that there was an appointment to be made tonight, we are holding it vacant, it doesn't mean that Mike can't be brought back in that position but I think at this point we need to, I think we need to reevaluate the position.

Mr. Lynch: Are you serious? You are going to discharge him tonight, think about it for what two weeks, three weeks.

Mr. Markley: I really would like to be done with this in two to three weeks.

Mr. Lynch: And then re-offer him the job, is that what you're suggesting?

Mr. Markley: Just to see if that is the proper fit.

Ms. Sass Benza: "Inaudible".

Mr. Lynch: Now if you really think that you might do that, all the more reason to delay discharging him so that he doesn't actually basically get fired and then you try to rehire him three weeks from now at which point I don't know he might have a little bit of an issue don't you think. Really Jeff, this is, this is absurd.

Ms. Sass Benza: Well. Is there any point in the discussion that we've not yet explored because I would say that if there is not we have a motion on the table.

Mr. Lynch: I have a question because you raised an interesting point that and I don't know if you have the code section but there is a section of the code that deals with Township Administrator that talks about the the undertaking of duties and I don't know if that is 032, there is a section that essentially describes what happens if the Township Administrator is out sick and the chairman takes his duties on a temporary basis, that that chapter is not intended to be discharging a Township Administrator, hold the position open and then let the chairman directly do the Township Administrator's job on an indefinite basis, that is not the purpose of that statute.

Mr. Markley: No, I agree.

Mr. Lynch: And that, that is what you and Jeff suggested.

Mr. Markley: Let me be clear.

Mr. Lynch: And let me say this, I'll just be flat "inaudible", if that's your intention then I think that must be your motivation because I can't figure out what your motivation is here.

Mr. Markley: Fair enough. Let me be clear. As chairman I have no interest in serving as a Township Administrator, I have no interest in micro-managing this township in any way. We've got.

Mr. Lynch: Hold on.

Mr. Markley: We've got capable department heads, we've got a capable fiscal officer and staff, we have capable, very capable employees. I think we did very well up until last year running this township and I think we can go back to that for a brief period of time to, to to solicit some of the department head input on how their relationship with the Township Administrator faired, what things could be improved, what could be made different and at which point then we can really go back and look and see if there if there's a role or not for anyone in this, in this township.

Mr. Lynch: Jeff, I don't want to say, you have been saying for two years it would be a good idea, a good thing.

Monday, January 4,

10

Mr. Markley: And I am not saying anything different now.

Mr. Lynch: Well then I.

Mr. Markley: That is why I made the motion to vacate that position.

Mr. Lynch: Jeff, I would implore you to table this motion at least for this two or three week or month period that you are talking about and let that investigation or discussion go on about the role of the Township Administrator's job description and so forth and then make a decision. I mean I don't know it just seems like bullying you come in on your first day and you are going to discharge the Township Administrator and what is the reason.

Ms. Sass Benza: I don't think we want to go there.

Mr. Lynch: Well I think you are going to have to go there.

Ms. Sass Benza: No.

Mr. Markley: I think they serve, these positions are all at will positions, they serve at the pleasure of the board, it is no longer the pleasure of me personally. Does anybody else, does anybody else.

Ms. Sass Benza: "Inaudible".

Mr. Markley: Yeah right and I think that's as far as I want to take it.

Ms. Sass Benza: And I would urge this board to be very cautious depending upon the outcome of this motion with any kind of comments, you all know what I am talking about.

Unidentified person: Is it power is that what you mean?

Ms. Sass Benza: No that is not what I mean.

Unidentified person: Oh.

Mr. Lynch: She is worried about the township being sued. I'm worried about running the township.

Mr. Markley: Yep that is exactly my "inaudible".

Unidentified person: "inaudible".

Mr. Markley: Excuse me Mr. Keck, excuse me now.

Mr. Lynch: It is clear we need the Township Administrator. I won't argue the point about what exactly his duties should be because, because that is really not the argument, the argument here is do we eliminate an employee who has served us well as the Township Administrator for the last year or so and well as our Zoning Inspector prior to that and I think it is, you got the votes, you can do what you want.

Mr. Markley: Any other discussion?

Ms. Sass Benza: No.

Mr. Markley: And the motion seconded by Ms. Sass.

Ms. Sass Benza: I think I seconded it.

End of verbatim transcript.

Vote followed: Mr. Lynch, nay; Mr. Markley, aye, Mrs. Benza, aye. All appointments with be made as listed previously.

Trustees' Note for Clarification - All of the above employees are exempt employees per the Fair Labor Standards Act; and neither they nor other exempt employees, shall be required to submit time cards.

PUBLIC COMMENT

Ms. Carol Fitch was amazed that the township would let such a valuable person go.

Mr. Keck stated that several weeks ago when Mr. Seliga mentioned Mr. Joyce's future and Mr. Keck asked the board if there was any truth to the rumors and each member said that there was not and he asked if the board members had discussed Mr. Joyce's position as Township Administrator and the reply was that no discussion had taken place regarding this individual.

Mr. Henri Pruess asked if it would be possible to retain Mr. Joyce as Zoning Inspector while relieving him as Township Administrator. Mr. Markley stated that the economic forecasting does not justify the need for two Zoning Inspectors.

Mr. Lynch seconded the motion that passed unanimously.

ZONING DEPARTMENTSeverance Pay

Mr. Lynch asked what the severance pay would be for Mr. Joyce. Mrs Measures stated that she will have those figures at next week's meeting.

PUBLIC COMMENT

Mr. Karl Kuckelheim asked the status of the sign in front of the Fire Department. Mr. Markley stated that the county is looking into the voltage spikes and the switch-over.

Mr. Mitch Fakadej stated that the additional container was never delivered and the Recycling Center was a disaster due to people leaving items on the ground around the containers. Mr. Markley replied that he has received phone calls from people wanting to form a committee in order to avoid closing the facility. Mr. Markley stated that the township has no intention of closing the entire facility, but cardboard recycling costs the township money and if anything is removed it might be the cardboard. Several options are available. Mr. Fakadej stated that the website for Geauga Trumbull Waste Management has a spot for filing complaints.

Mr. Lynch announced that he will be seeking the Republican nomination in May for the State Representative to the 98th District. Provided Mr. Lynch wins the May primary election, he will then be the Republican candidate in the November General election. In the event that Mr. Lynch does win the November election, it would then be necessary for him to resign as Bainbridge Township Trustee effective January 1, 2011, cutting short his full term as trustee by one year. The board wishes Mr. Lynch well on this venture.
