

Water/Sewer Issues

Water Supply:

The majority of Bainbridge Township residents are supplied water by the way of either private well or public well water systems not maintained by the Township. There is also a small portion of the Township provided water by the Cleveland water system. Please contact them should you have water supply issues at 216-664-3060.

Sanitary Sewers:

The majority of the Township remains on septic systems which are the responsibility of the property owners. The Geauga County Department of Water Resources provides sanitary sewer service to a portion of the Township and any problems/emergencies should be reported to them by calling 440-279-1970 during regular working hours and 1-866-286-7292 after hours.

Any further information can be found on their website at www.gcdwr.org
