

I wanted to share with you and your residents and small businesses important information about our natural gas pricing and upcoming enrollment mailing.

For our anniversary enrollment mailing being sent to all current and newly eligible NOPEC natural gas customers in your community starting in mid-April, **the initial price for our Standard Program product for Enbridge Gas Ohio (formerly Dominion East Ohio) customers will be \$4.99 per Mcf for the 3-month period beginning with the June 2025 meter reads through the August 2025 meter reads.** For those customers that prefer even longer periods of predictable pricing, we recently updated our fixed term product prices as well. The new pricing for our product options will be:

Natural Gas: Standard Program Price

Meter Read Dates	Enbridge Gas Ohio
June 2025 through August 2025	\$4.99 per Mcf

Natural Gas: Fixed Term Pricing (Starting May 2025)

Fixed Term Length	Enbridge Gas Ohio
12-months	\$5.50 per Mcf
24-months	\$5.75 per Mcf

Customers can also choose our Monthly Variable Price product; the price will be \$0.02/Mcf less than the utility's Standard Choice Offer which is reset monthly. Enrollment in the Monthly Variable Price product is limited to 3.5% of NOPEC customers in the utility service territory and therefore subject to availability. To enroll in any of the fixed term or MVR products, consumers can simply call NOPEC's Customer Care Center at 855-667-3201, 24 hours a day, 7 days a week.

2025 Anniversary Enrollment Mailing

NOPEC is required by the Public Utilities Commission of Ohio (PUCO) to send enrollment letters to all current and newly-eligible natural gas customers every two years. Starting in mid-April, eligible residents and small businesses in your community will begin receiving this enrollment packet which provides details about the aggregation program, NOPEC's Standard Program Price, other available rate options, and instructions on how to enroll or opt-out of the aggregation program.

Current customers already enrolled in NOPEC's Standard Program Price option, and those that want to join NOPEC, do not need to take any action. They will automatically be enrolled in NOPEC's Standard Program Price option at the above-stated price for the period beginning with customers' June 2025 meter read dates. If consumers do not wish to participate in NOPEC's natural gas aggregation, they must notify NOPEC by following the opt-out instructions included in their enrollment letter.

As always, we sincerely appreciate your continued support of NOPEC and your assistance in informing and educating your residents and businesses about the benefits and protections enrollment in NOPEC provides. To that end, attached is a graphic announcing the new pricing to make it easy to post on your community's website, push out on your social media channels or include in your newsletters. If you have any questions regarding this, or any other NOPEC matters, please don't hesitate to reach out to your Relationship Manager or contact me directly to discuss.

*Formerly Dominion East Ohio

Continuing our commitment to providing price stability for your residents and small businesses, I am pleased to announce that **NOPEC will hold our electric Standard Program Price (SPP) steady for another six-month period from the June through December 2025 meter read dates at 8.929 cents/kWh.** That price is expected to be below the utility's Standard Service Offer (550) pricing over that time. This price stability follows a 12-month period where we held our Standard Program Price steady from June 2024 through May 2025.

In addition, for those customers that prefer even longer periods of predictable pricing, we recently updated our fixed term product prices. These prices are in line – and largely below – what is currently being offered on the Apples to Apples shopping website and come without the hidden charges and strings attached to many retail offers. Meaning your residents and small businesses can enjoy the peace of mind that NOPEC's product variety, flexibility, no early termination charges, and no risk terms provide for up to 2 years! And they can take advantage of these competitive rates by simply calling NOPEC's Customer Care Center at 855-667-3201, 24 hours a day, 7 days a week.

Electric: Fixed Term Pricing (Starting May 2025)

Fixed Term Length	Ohio Edison/The Illuminating Company
12-months	8.500 cents/kWh
24-months	9.000 cents/kWh

As we shared with you at our General Assembly meeting in November, the increase in prices is primarily driven by a huge spike in capacity prices from our electric grid operator, PJM, and is outside of NOPEC's control. That pass-through cost applies to all Ohio electric customers.

As always, we sincerely appreciate your continued support of NOPEC and your assistance in informing and educating your residents and businesses about the benefits and protections enrollment in NOPEC provides. To that end, attached is a graphic announcing the new pricing to make it easy to post on your community's website, push out on your social media channels or include in your newsletters.

If you have any questions regarding this, or any other NOPEC matters, please don't hesitate to reach out to your Relationship Manager or contact me directly to discuss.

Sincerely,

Chuck Keiper
